DeMiMoP 2014 Keynote

You are the keynote

2nd International Workshop on Decision Mining & Modeling for Business Processes (DeMiMoP’14)
In conjunction with BPM 2014, Eindhoven,
Sept 8, 2014
Suggestions for future editions

Extending the Scope:

• Include managerial aspects of decision & process modeling and management
• Include big data
• Include governance of decision mining & modeling
• HRM aspects
• Decision mining & privacy
• Feature selection & measures
Suggestions for future editions

Keeping the Focus:

• Decisions are more than processes
• Recommendations for decisions (process, resource, activity)
• Focus on decision or process depending on purpose (KPI, metric, speed, accuracy)
• Declarative aspects (rules, constraints, decision rules) & visual
Additional subjects

- Typical application areas and applications
- Classes of tools (DMN, Decision mining)
- Other forms of process modeling
- User stories
- Decision mining & BPMN
- Different paper categories: research, industry, technical, tools, experiences

See you next year
