

- 14:00 Benjamin Dupont  
Université Claude Bernard, Lyon, France  
*Rewriting on String Diagrams and Categorification*
- 14:10 Pavlos Marantidis  
Technische Universität Dresden, Germany  
*Quantitative Variants of Language Equations and their Applications to Description Logics*
- 14:20 Franziska Rapp  
Universität Innsbruck, Austria  
*FORTissimo—Automating the fFrst-Order Theory of Rewriting*
- 14:30 Antoine Defourné  
Inria, Cachan, France  
*Proof Tactics in Dedukti*
- 14:40 François Thiré  
Inria, Cachan, France  
*Interoperability between Arithmetic Proofs using Dedukti*
- 14:50 Florian Frohn  
RWTH Aachen University, Germany  
*Automatic Complexity Analysis of Programs*
- 15:00 Benjamin Lion  
CWI Amsterdam, The Netherlands  
*A Compositional Formal Model for Cyber-Physical Autonomous System*
- 15:10 Maciej Zielenkiewicz  
University of Warsaw, Poland  
*Automata Theory Approach to Predicate Intuitionistic Logic*
- 15:20 Zach Smith  
Université du Luxembourg, Luxembourg  
*Automated Verification of Security Properties in RFID Communication Protocols*
-
