```
MessageDigest md = MessageDigest.getInstance("MD5");
md.update(original.getBytes());
byte[] digest = md.digest();
StringBuffer sb = new StringBuffer();
for (byte b : digest) {
    sb.append(String.format("%02x", b & 0xff));
}
```

```
md = MessageDigest.getInstance("MD5");
md.update(toHash.getBytes("UTF-8"));
digest = md.digest();
sb = new StringBuffer();
for (byte b : digest) {
    sb.append(String.format("%02x", b & 0xff));
}
```

```
<code>System.out.println(...);</code>
```
