Machine Learning / Data Science

Naspers AI team is looking for skilled, curious and passionate students for a number of machine learning / data science projects. We offer exposure to large-scale projects in a very dynamic business. In addition, Naspers offers you excellent career development possibilities.

What do we offer?

- Some internship assignments may be suitable to perform your thesis
- Duration: 3-9 months
- We prefer students able to start as soon as possible, no later than January/February 2018

What will you need to be successful in this role?

- Currently studying towards your University Bachelor of Science (Bsc.) or Master of Science (Msc.) in:
  - Business Informatics
  - Computer Sciences
  - Engineering Software
  - Mathematics
  - Software Technology
- You have a strong engineering background working with at least one programming language (Python, Java)
- Good written and oral communication skills
- Fluent in English.

Nice to have

- Hands on experience with TensorFlow or Keras
- Knowledge of algorithms to classify and predict behaviours
- NLP or Text mining experience
